# EVENING BULLETIN

3:30 EDITION

Not a class publication, but a newspaper for everyone

Advertising is the modern arm of the business man; it is a shield against competition. The Bulletin is the shield of the Honolulu business man, because it covers the islands more thoroughly than any other paper published.

ESTABLISHED 1882. NO. 4534.

10 PAGES—HONOLULU, TERRITORY OF HAWAII, FRIDAY, MARCH 11, 1910.—10 PAGES.

PRICE 5 CENTS

## THOUGHT THEY SAW HALLEY'S COMET STATEHOOD DISFRANCHISES MEXICANS

### Republican Insurgent Ticket

HONOLULU, S. D., Mar. 11.—Insurgent Republicanism took a definite party shape here today, when the Insurgent Republicans of the State held their convention here and nominated a complete State ticket, with R. S. Vesey heading it for Governor.

### Administration Goes to Defeat

ALBANY, N. Y., Mar. 11.—Administration forces of the Republican party suffered a distinct defeat today, when Cobb, the candidate of the anti-administration forces, was elected the president of the State Senate. The electoral fight has been a bitter one, and of such nature as to call for the participation of Senator Root in the effort to bring about party harmony.

### Approve John

WASHINGTON, D. C., Mar. 11.—A favorable report was made to the Senate today on the bill to incorporate the immense fortune of John D. Rockefeller. It is the plan of the senator to incorporate his estate and thus make provision for his philanthropic enterprises.

### SICK RUSSIANS PROVING COSTLY

No expense is being spared by the Territorial government in its work of caring for the Russians stricken with diphtheria and now confined under the strict regulations of the department at Quarantine Island.

As a result of the examination by the physicians it was found that there were one hundred and forty-five "positives" indicated, that is, the presence of the diphtheria bacilli in the throats of one hundred and forty-five of the six hundred subjects of the czar now at quarantine island. The physicians make a difference between the hundred and forty-five showing the presence of the bacilli in their throats and the actual diphtheria cases, which are about twelve in number.

Many of those who have bacilli in their throats are strong, healthy men of sufficient resisting power to avoid being included in the ranks of the actual diphtheria cases.

"The treatment of the Russians is proving very expensive," said Mott-Smith yesterday. "We have sent to the mainland for anti-toxin in large quantities. On the Alameda we expect a shipment of 250,000 units and I hope the Mongolia will bring 500,000. The anti-toxin is used as a preventative as well as a cure. Since each person afflicted requires a dose of from 500 to 1000 units, according to the opinion of the attending physician, it is plain that a large amount of the expensive necessity will be required, since we may have to give it to every Russian."

Two hundred and thirty of the quarantined Russians are using tents loaned to the Board of Health by the Fifth Cavalry and the actual work of superintending at Quarantine Island is in the hands of Dr. Sinclair and Dr. Harker. Sergeant Barry is in charge of the Hospital Corps detachment from the National Guard.

### CHURCH BURGLAR GIVEN TWO YEARS

Man Who Looted Poor Boxes Must Serve Sentence For His Crime

Antone Soosheck, the Pole who was arrested and charged with robbing the poor boxes of different churches around town, was up in court this morning and besides the original charge a new one, of being illegally on the premises was laid against him. Several witnesses were put on the stand, and the first of them, Mrs. Lyette, deposed that she saw the accused coming out of the Catholic Cathedral between the hours of 12 and 1. The Pole walked along Fort street and seemed to be anxious to avoid attention.

David Kamao, a special officer, saw the alleged church robber on Fort street and followed him for some distance. Brother Sylvanus said that on February 21 the poor box was broken open, and a sum of money taken from it. He had repaired the lid of the box and then on another night the box had again been broken open but no money taken as the brothers had removed the coins.

### MUCH INTEREST IN QUEEN'S ARRIVAL

S. K. Mahoe Promises Sensation As a Witness

Her Majesty Queen Liliuokalani, according to the latest report will return to her island home here in Honolulu on the Matsun liner Wilhelmnia, arriving on the 18th. She will be accompanied by her suit, including John Almoku her private secretary, J. Kaipua Aoa, and probably Col. Sam Parker, Frank Thompson, the attorney, and others, who have been visiting on the mainland.

The Queen, it is said, has been visiting at Pass Robles in Southern California, although reserving apartments in the Hotel Stewart.

Col. Hauke, her agent here, when asked this morning stated that he was not aware of her return in the Matsun liner. He was of the opinion, however, that she would return during the latter part of this month.

Should the Queen not return on the 18th, it is more than probable that she will arrive on the steamship Korea, on the 28th.

The return of Her Majesty is being awaited with a great deal of interest by the kamaeas, especially those who have to do with her property.

Hon. S. K. Mahoe of Wailuku came to town today to appear in a witness in a case in which Her Majesty is suing the trustees of the Liliuokalani Estate. Mahoe, who was erroneously reported dead by the Advertiser some time ago, said this morning that when he appears as a witness in the Queen's case, he would disclose certain matters, which will be not only interesting, but "a revelation."

### MRS. ZEAVE TO BE CANDIDATE

By mistake, the name of Mrs. Zeave was dropped today from the list of candidates for chaplain in the Oahu list. Mrs. Zeave will be a candidate and the name will appear in the list tomorrow.

### MINISTER CALHOUN DELAYS VOYAGE

S. F. Examiner, Feb. 26.—W. J. Calhoun, newly appointed Minister to China, will be a passenger for the Orient in the Japanese liner Tenyo Maru, to sail from San Francisco on March 15th. He had reserved accommodations on the Mongolia, to sail March 8th, but yesterday telegraphed instructions to transfer his name to the Tenyo Maru's list.

### Telescope DOLE AND BRECKONS Bellingher

United States Judge Has Asked Department of Justice For Leave Of Absence

There will be two important offices of the United States department temporarily vacant in Hawaii this summer, according to the plans that have been made by United States Judge Dole and United States District Attorney Robert Breckons. Judge Dole has asked the Department of Justice for an extended leave of absence, and expects to receive it in the near future, when he will take an extended trip to the mainland and Europe.

The case of the United States District Attorney is slightly different. He is anxious to go East for the purpose of having his eyes treated, but has found it particularly difficult, because of the duties of his office and the rapid methods of procedure that have been put into operation by United States Judge Robertson.

### FAKE WEDDING RINGS BEING SOLD IN THIS CITY

Porto Rican Accosts Peddlers AT Night

A most astute scoundrel is busy harvesting dollars by selling fake wedding rings in this city. Under the cloak of darkness, this man, who is believed to be a Porto Rican, assumes to be drunk. He accosts single individuals, in some quiet portion of the city, and, feigning to be hard up, offers a supposedly gold wedding ring for sale.

These rings are splendid imitations of the real thing, and if they were a trifle heavier in weight could easily pass as the real thing. To make them look real at first sight, they have been engraved with the date of the supposed marriage, and bear the initials of the contracting parties.

Last night an employee of the Inter-Island S. N. Company was accosted by this Porto Rican, and after a little bargaining was induced to purchase one of these rings for \$1. Thinking that it might have been stolen and wishing to prove if it were really gold, he took it to one of the leading jewelers of the city this morning. It was pronounced a fake and not worth ten cents.

Another gentleman, who wishes his name unmentioned, was accosted at 8:30 o'clock last night outside the Majestic Hotel, by a Porto Rican of slight build and wearing a mustache. This man assumed an attitude of begging and appeared to be somewhat under the influence of drink. He thrust out his hand, in which was one of these fake wedding rings, and said: "How much you give?" Thinking that the ring was too light for real gold, and believing it to be of brass, the party accosted handed the ring back. The man then said: "You give \$1?" and proffered the ring for closer inspection.

Seeing that initials "W. to C." and the date "Feb. 5, '98" had been "engraved" on the inside of the ring, it was thought to be a good one, but feeling that there was something "fishy" about the transaction, only fifty cents was proffered. The Porto Rican accepted this sum and slunk away.

This ring was taken to a leading jeweler (Continued on Page 6)

### Concede Some

PHILADELPHIA, Mar. 11.—The influence of the present industrial disturbance is manifest in many quarters. Today it is reported that many of the industrial plants are granting their employees concessions in order to prevent them going out on a sympathetic strike in support of the street railwaymen.

United States District Attorney Breckons expects to hear in the next mail from the Department of Justice in regard to the case of Anderson Grace, the confessed murderer of Watchman Mahu at Watertown.

Grace asked Breckons to be allowed to enter a plea of guilty to murder in the second degree as a result of his confession of the crime and Breckons referred the request to the Department of Justice at Washington.

"There is a possibility," said Breckons this morning, "that the Department will refer the matter to me and allow me to decide."

"What will be your decision in that event," the United States Attorney was asked.

"That will be a subject for further consideration," was the reply.
